

Akshay Suresh

BCA student and aspiring cybersecurity professional with strong foundations in front-end development (HTML, CSS, JavaScript, React) and backend technologies (PHP, MySQL). Passionate about ethical hacking and web application security, with hands-on experience in secure coding practices and beginner-level penetration testing. Seeking internship or entry-level opportunities to apply development skills while advancing a career in cybersecurity.

Projects

Python RAT (Remote Access Tool) — Client / Server

- Built a client-server remote access tool using Python sockets and encryption, demonstrating knowledge of network architecture and secure command execution.
- GitHub link: [Python RAT Tool](#)

Python Port Scanner

- Developed a multithreaded port scanner in Python to detect open TCP/UDP ports across IP ranges.
- GitHub link: [Port Scanner](#)

Car Wash Management System (PHP + MySQL)

- Created a full-stack Car Wash Booking web app using PHP for server logic, MySQL for database, and HTML/CSS/JS for front-end.
- Applied basic security measures (input sanitization, password hashing).
- GitHub link: [Car Wash Management System](#)

Personal Portfolio (akshay.devportfolio)

- Developed and deployed a responsive portfolio website to showcase projects, skills, and contact information.
- GitHub link: [Portfolio](#)

Work Experience

Cybersecurity Intern — Srishti Innovative (Offline Internship)

July 2025 – Aug 2025

- Worked on basic penetration testing and security assessments under guidance.
- Gained hands-on experience with Python scripting for automation and security tasks.
- Learned vulnerability scanning, secure coding practices, and fundamental cybersecurity tools.

Full-Stack Intern — Unified Mentor (Online Internship)

Jan 2025 – Feb 2025

- Gained exposure to full-stack development workflows, including front-end (HTML, CSS, JavaScript, React) and backend (PHP, MySQL).
- Built and deployed small-scale applications, integrating frontend and backend components.
- Improved skills in database handling, API integration, and responsive web design.

Skills

Cybersecurity & Ethical Hacking

- Kali Linux
- Linux CLI & System Administration
- Nmap & Vulnerability Scanning (basic)
- Secure Coding Practices

Web Development

- HTML5, CSS3, JavaScript (ES6+)
- React (basics), Bootstrap, TailwindCSS
- Responsive Design & UI/UX

Backend & Databases

- PHP (adequate)
- MySQL (schema design, queries, indexing)

Programming & Tools

- Java, Python, PHP, JavaScript
- Git/GitHub, VS Code, npm

Soft Skills

- Problem-Solving & Analytical Thinking
- Teamwork & Communication
- Quick Learner & Adaptability

Languages

- English (Fluent)
- Hindi (Fluent)
- Malayalam (Native)
